The Governor Improving.

Yesterday Gen. Beatty received the following:

The Governor steadily improving. Mrs. J. E. Jones.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

THE THOMAS CABIN SHOW.

Little Eva Tells How They Travel.

The Thomas Cabin Show has come and gone. It is but a matter of justice to state that the Opera House management had nothing to do with it, also that bad as their acting was the music was superb. The conglomeration came in one car. Mules, actors, ponies and scenic effects, all piled together with tubs of hay and cooking utensils combined.

The play was the most villainous thing in the theatrical line ever staged by a Carson audience. Uncle Thomas was a cross between Peter Jackson and the end man of the Billy Cotton troupe. He was greeted by the audience with:

"Hey there old sport," "Where'd ye buy you pants," and such like expressions of inquiry.

A due regard for the poverty-stricken condition of the English language in the matter of expletives advises us to draw the curtain over the performance. Yesterday afternoon our circus and theatrical reporter hunted up Little Eva. She was sitting on a bale of hay wrestling with a ham sandwich in the company's car.

"How do you all get in one car?"

"There ain't so many of us as you think. We don't always line up as many people in the car as there are on the hand bills. It's dead easy to get on to that and I'm surprised you ain't on."

"Where do you all sleep?"

"I sleep on one of those mules and Topsy she sleeps on the other. The mules they don't sleep at all."

"Is that Topsy over there?"

"Yes, don't wake her up; her work on the stage is only hard. She need to do hand springs with Wilson's circus. You see some of us have to sleep when the other people are rehearsing; all the same Bess and Cora."

"You don't mean to say that you have to rehearse a play like Uncle Tom's Cabin?"

"Ordinary act," she says, "I have to, but you see this green," she points to the stage and a green light never saw the show. The manager has found it a new place and that keeps him strung up and right on edge."

"Don't they ever read the newspapers?"

Here Little Eva burst into a fit of hilarity that woke Topsy up.

"What this for Topsy, she asks if the gang ever read the papers."

Topsy joined in the merriment and they both had a good laugh.

"Do you spon these mugs ever banned to read? They couldn't on their salary. Everyone one of 'em but Lora who she slave drive thinks its the first time the piece ever went on the road."

"Don't you ever advertise in the papers?"

"No. Got nobody in the company that can write advertisements."

The Vaugh Case.

The decision in the Vaugh case has raised more or less excitement in Lander county.

It has twice been tried there. It and twice reversed on technicalities appears that after the jury was accepted one member was out off because it transpired that he did not believe in capital punishment. This was held to be an error. This case was tried by Fitzgerald and by Mack, and reversed will now go to Cheney, in Washoe county. It was one of the most cold blooded and senseless killings the State has seen for years and the two trials have almost bankrupted Lander county. If the decision holds the Durrant case and the Heney case can be reversed for the same reason.

Put on Your Wrappers.

We learn with much regret that many people in this city are in the habit of rushing out in some very inclement weather and their night clothes to grab the Appeal the moment it reaches the front steps, for fear that some non-subscribing neighbor will grab it. Many ladies in their anxiety to get hold of the paper early in the morning have neglected to put on their wrappers, and have caught severe colds in consequence. In weather like Nevada is now having, even a paper as interesting as the Appeal is hardly worth the risk of pneumonia and other lung troubles.

Ordinary Caution.

Coffin was out at the State Prison the other day trying to convince Heney that he would soon have him pardoned out. On leaving he shook hands with his unfortunate client, and renewed his assurance of regard.

In a few minutes Heney was carefully counting his fingers over a few times.

"What's the matter?" asked a guard.

"Just wanted to see if they were all there."

FLEETEST OF HER SIZE.

A Steel Steamer for Lake Tahoe to Run 23 1/2 KNOTS an Hour.

The Call of San Francisco gives the following description of the new steamer to be built at the Lake.

What is designed to be the fastest craft of her size afloat in fresh waters is now being constructed at the shipyards of the Union Iron works. She is being built to the order of D. L. Bliss and his son C. T. Bliss, well-known capitalists of Tahoe, and is to be used largely for excursion purposes on Lake Tahoe.

She is to be a steel twin-screw steamer, and will measure 168 feet 2 inches over all, 17 feet and 10 inches beam, and her extreme draft will be six feet. Her guaranteed speed is to be 23 1/2 knots per hour and the cost will be \$70,000. She will be put together in this City ready for launching and when it is ascertained that every bolt is perfect she will be taken apart again and transported by rail to Truckee. From there she will be hauled by team to the shores of the lake, reconstructed, launched and christened.

This new and swift vessel will take the place of the Meteor, which is at present engaged in carrying the mail to the various towns located on the shores of this inland sea.

It is expected to have the new steamer in service by the first of June when the summer excursion season to Lake Tahoe begins. The Central Pacific Railroad Company has already made arrangements with the Blisses to run at least one special excursion train a month to Truckee during the summer. The train will leave here Saturday night and return Monday thus giving the excursionists all of Sunday for pleasuring on and about the Lake.

In furtherance of their plans, the Blisses are also projecting an electric or trolley line from Truckee to Tahoe, a distance of about thirteen miles at a cost of about \$200,000. The electricity for the power necessary to operate the road will be derived from the magnificent falls that exist in the vicinity of the Lake.

Another feature of the grand plan to make Lake Tahoe and its vicinity a great and popular summer resort is the erection of a fine hotel on the shores of the Lake near Tahoe. This will have accommodations for about 150 guests and will be furnished with every requisite for convenience and comfort.

The Sport's Return.

John Wilson, better known as "Bodie" one of the Appeal's comps has returned from a trip to the Bay. He has inspected the Lakeside race track and places the red seal of his approval on it. He fell into the betting padlock once or twice and made some great plays also heavy losses. Altogether he left the wicked city \$8 to the good. He says that the toughest nags he ever saw are the string of horses belonging to Ralph Spreckels proprietor of the track.

When he was in the grand stand on July's day the police had to guard him.

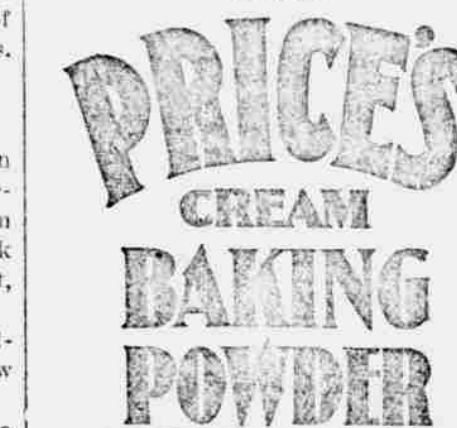

In Memoriam.

When Duff and Lemon touched St. Peter's wicket The coupon angel found they had no ticket. He closed the door upon their anxious faces. And recommended trips to other places. But that same evening where the great light shone Beheld these worthies seated near the throne. "How came you here?" quoth Peter with a roar. "Crawled through the crack that runs beneath the door."

Cutlery.

John G. Fox has now the most complete line of cutlery in this city and of the finest quality. Everything in the line of first-class cutlery can be found here and at the most remarkable prices.

CHEAP CUSTOM WORK A DECEPTION.

A style of tailoring is rapidly gaining headway which is but an imposition upon the consumer and a detriment to the workman. The cheap custom work or what is called "special order work," is a shrewd dodge for the purpose of deceiving the customer into the belief that he is obtaining custom work at ready made prices. The real worth of custom work lies in the exactness of the fit, and the thoroughness in which it is made. Cheap custom work is therefore inferior to ready made work.

Large concerns, some also engaged in ready made work have grown up of late and depend for patronage upon retail stores, and have numerous agents scattered everywhere soliciting orders and gain trade because of the strikingly cheap prices offered for goods made to order. As a rule these agents seldom obtain an order twice from the same person.

It is about time that this scheme was exposed to the people and ABE COHN of the EMPORIUM shows up the fraud. If you want clothes that fit and are tried on as often as is necessary call at the EMPORIUM Court House Building, Carson City, Nevada.
